

*Precision Helicopters, Inc
Presents
The Ultimate 3-D/FAI Helicopter*

Kam Wyatt- President

**Made
In
THE
U.S.A.**

Standard Features:

- All major components pre-assembled**
- 46 precision sealed ball bearings
- All metal components manufactured with 6061 T6 (Aircraft Grade) aluminum
- All metal rotor head CNC Machined
- All metal washout unit
- All metal swash plate
- Stainless steel flybar
- Machined delrin main gear
- Thrust bearing supported main shaft
- High Performance (680mm) main rotor blades
- Adjustable rotor head dampening
- Stainless steel push rods on all controls
- Composite vertical/horizontal tail fins
- Triple ball bearing tail rotor
- All metal tail rotor housing
- Kevlar reinforced belt driven tail rotor
- One piece steel tail rotor hub
- High performance tail rotor blades
- All bolts 12.9 grade hardened steel
- 25 degree pitch range
- New nylon landing gear with aluminum skids
- New fly bar paddles
- New carbon fiber boom braces
- New carbon fiber tail rotor push rod
- New carbon fiber flybar doublers

Options:

- Legend to Tornado upgrade kits
- Phoenix to Tornado upgrade kits
- G-10 FAI side frames
- Vertical G-10 servo tray
- Self aligning clutch
- Slipper type constant drive auto unit
- Titanium mixing arms
- Fiberglass canopy
- Tail boom mounted tail rotor servo
- HELICOPTER HARDWARE** 803 pieces in plastic carryall container.

Specifications:

- Engine Size: .60-61 cu. in (10 cu. cm.)
- Main rotor span: 60" (1530 mm)
- Tail rotor span: 11" (280 mm)
- Weight: 9.5 pounds
- Radio: 5 channel heli with gyro
- Gear Ratio: 9:3 : 1 : 4.66
